

DAKOTA STATE UNIVERSITY
Mathematics Waiver Form

I, _____, understand that Dakota State University
(Students name)
requires that all students take the MATHEMATICS PLACEMENT TEST before enrolling in their first DSU mathematics course.

I also understand that the purpose of the mathematics placement program is to enhance my opportunity for success in college mathematics by helping to identify the appropriate mathematics course for which I should enroll.

This placement process determined that I should enroll in _____.
(Course Name)

I am choosing not to follow this recommendation and I will enroll in _____.
(Course Name)

The attached letter contains my justification for enrolling in a lower or higher-level math course. I realize this is inconsistent with the placement test results and I will assume full responsibility for this decision. I also realize that I may have to repeat the course I have chosen to take or drop back to a lower level course.

Signature _____ Colleague ID _____

College/Major _____ Date _____

Address _____

I have met with this student and explained the reasons for the placement testing. We have also discussed the benefits of registering for the appropriate course.

Advisor's Signature _____

.....
